## CAREER OBJECTIVE

---

Dedicated Technical Support & QA Professional with nearly 3 year of experience in enterprise-level ERP systems. Proven skills in Manual Testing (Functional, Regression, UAT), Bug Tracking, and Requirement Analysis. leveraging a background in acting team leadership and cross-functional coordination to seek opportunities that utilize technical expertise and organizational skills within a technology-driven environment.

## PROFESSIONAL EXPERIENCE

---

### Tiger IT Bangladesh Limited

Feb 2023 – Present

*Technical Support Assistant (Acting Team Lead) – CAAB ERP Project*

*Dhaka, Bangladesh*

#### Application Support & Team Leadership:

- Served as **Acting Lead** of the Application Support Team for the **Civil Aviation Authority of Bangladesh (CAAB)** ERP portal, coordinating operations across all civil airports.
- Led L1 support activities, acting as the primary escalation point between end-users and the QA/Development/DB teams.
- Provided onsite and remote support to ensure uninterrupted ERP usage for geographically distributed airports.

#### Software Testing & Quality Assurance (SQA):

- Executed **Regression, Functional, and User Acceptance Testing (UAT)** for new features and patches prior to production.
- Validated business workflows, Role-Based Access Controls (RBAC), and data consistency to prevent regression issues in live environments.

#### Bug Tracking, Analysis & Documentation:

- Analyzed and documented software defects reported by end-users, distinguishing between functional bugs and user errors.
- Prepared structured **bug reports and impact analyses** for L3 developers, significantly reducing debugging time.
- Assisted developers in L2/L3 issue analysis by providing real-world usage context and functional insights.

#### Requirement Gathering & System Enhancement:

- Conducted requirement gathering sessions with CAAB stakeholders for new modules and system extensions.
- Authored **functional requirement documentation** and change requests, bridging the gap between business needs and technical implementation.

#### User Training & Crisis Management:

- Delivered end-user training programs and live support sessions to improve user adoption and reduce operational errors.
- Participated in critical incident handling, coordinating with infrastructure teams to restore services during disruptions and post-incident reporting.

## EDUCATION

---

### **Dhaka Polytechnic Institute**

*Diploma in Engineering (Computer Technology)*

CGPA: 3.80 / 4.00

Board: Bangladesh Technical Education Board
